

APPLICATION FOR A CONFERENCE ORGANISATION GRANT FROM THE SYSTEMATICS ASSOCIATION

- The Systematics Association provides grants to support the organisation of meetings that are pertinent to the Association's aims.
- Applications may be submitted at any time of year, but ideally should be received at least 9 months before the date of the proposed meeting. They will be evaluated by the Systematics Association Council at its meetings in January, April, July and October.
- As of July 2009, due to financial pressures, the Association has decided on a moratorium on funding meetings that are not planning on publishing a related SA volume. We strongly encourage people considering organising a meeting to consider publishing a book based on the proposed meeting within the Systematics Association – the Association has a great deal of experience in producing high-quality volumes, many of which become landmark publications in their fields, and add greatly to the profile and value of meetings.
- The Association will give priority to applicants who aim to improve access to meetings for participants that would otherwise be unable to attend, especially participants from developing countries.
- Funding is provided in advance of a meeting to allow organisation to proceed smoothly. Any unused funding should be returned to the Systematics Association, who will re-invest it in future meetings.
- All successful applicants are expected to provide a report of the meeting to be published in the Systematics Association Newsletter.
- Applications should be returned to Dr. Alex Monroe, Herbarium, Royal Botanic Gardens, Kew, Richmond, TW9 3AE, UK. a.monro@kew.org

TITLE OF MEETING:
